## ABOUT US

### Who Are We?

---

The staff of the Spanish Language Center, Inc., (SLC) consists of bilingual, native, Spanish speaking instructors, translators and interpreters with a solid and professional background in their respective fields.

### Our Mission

---

The Spanish Language Center is determined to enhance communication and cultural understanding between English and Spanish speaking people in our community through professional and effective Spanish instruction, as well as providing reliable and accurate translation and interpretation services.

### Our Method

---

With us, you will start speaking in Spanish from day one!

Our approach at SLC is to take advantage of the student's existing knowledge of the English language usage and structure in order to - by applying comparisons - help build and understand the structure of the Spanish language.

Grammar is explained in an easy to understand manner and then immediately applied with oral exercises for you to start speaking at once. Knowing the "How's" and "Why's" of the Spanish language makes the learning process much easier.

The student's desire, enthusiasm, and determination, along with the guidance of our truly experienced and knowledgeable instructors are all essential ingredients to learning the language.
